Dear Gentlepersons:

Dr. Peter E. Haiman has served as Department Head of the Early Childhood Education Department at USC-Aiken Campus for the past two years. His responsibilities have been to coordinate and implement both the graduate and undergraduate programs in Early Childhood. He has fulfilled this task admirably.

The situation when Dr. Haiman arrived on campus was not an easy one. He had to overcome the abortive attempts of a Professor who had left mid-semester in the preceding spring by mutual agreement. Dr. Haiman immediately began developing good relations with the community, implementing strategies for good public relations, and maintaining professional associations at the state and national levels. He has worked diligently at a local level in an advisory capacity with child oriented programs, and he has attempted to institute various programs for children in the CSRA.

Dr. Haiman's professional zeal as well as his enthusiasm for caring are unparalleled among his peers. His professional record speaks for itself. I recommend Dr. Peter E. Haiman for tenure at USC-Aiken Campus and for promotion to the rank of associate professor.

Sincerely,

William A. Anderson
