

Dear Peter

It is a rare occasion that one receives a gift so precious and meaningful to one's life. The confidence and belief you have shown me regarding being a teacher is indeed a precious gift for me. It gave me reassurance and confidence I needed; most of all, it rejuvenated my dream and drive to be aware of student's need is possible and still teach. Because, that's what you did for me. I have been questioning whether my quest was possible with closing of schools, budget cuts and teacher lay-offs. Somehow, I lost site of my dream and drive, but I found it ... through you!

Furthermore I want to thank you for understanding my health problem, and I want to thank... for speaking and informing me about my mediation.

Before closing, I wish you, joyous Christmas & New Year!

Sincerely,
