Dear Mr. Haiman,

Recently my wife and I had the privilege of attending three of your classes on "Parenting the Young Child" at Albany Adult School.

Although we do not have any young children of our own, we do run a licensed family daycare.

We are thankful to you for teaching us how effectively and affectionally young children should be taken care of.

We are applying the systematic training we received from you in our daycare and are happy to say that we are extremely successful.

We strongly recommend that all daycare operators go through your class. There is a whole lot to gain. We surely did.

Thank-you Dr.Haiman for all your help.
