Dear Dr. Haiman:

I am writing this letter to express our appreciation for your presentation on child development at the Preschool in January. I thought it was a stimulating and informative evening, and I have the "Behavioral and Diagnostic Check-List" magnetized to my refrigerator for all time. I, too, regret that time was short and we could not hear more of what you had to say. Thank you again for your time and ideas.

Yours truly,

Louise Specht,
Secretary
